Instructions

This is an annual return for vehicles that operate on Liquified Gas. The amount on Line 5 on the front of the return reflects the total amount of decals purchased during the filing period. The total gallons consumed in Tennessee is calculated on Schedule A and any potential credit that may be due for out-of-state miles or discontinued vehicles is calculated on Schedule B. Complete Schedule A before completing the front of the return.

SCHEDULE A

Divide the miles on each class by the MPG allowed to determine the number of gallons (attach Vehicle Schedule C).
